Subject: EPA-Lockheed Martin meeting

Harry- Doug Goins and Brad Owens want to participate and expressed a preference for December 4. I recall that Dec 3 in Seattle was your preferred date, but Dec 4 in Portland could work. I would like to suggest a 1 to 4pm meeting on that day. Can you check your team members' availability to meet at that time? A morning meeting could also work-I'm just suggesting a specific time to move the ball forward on the meeting schedule.

If you want to meet in Seattle rather than your suggested Portland, that's ok. I don't think we have any preferences between those two locations.

To the extent that our discussion focuses on the RCRA landfill, I think it would be a good idea to invite a DEQ rep. Let me know what you think about that.

I'd like to suggest that we focus on treatment issues and lab or field studies relating to potential gas generation. I recognize there are many other issues worthy of discussion, so I welcome your thoughts on the agenda.
